CALF PELLET

PROTEIN*
20.3%
ENERGY*
12.5 MJ/KG

Nutritionally balanced for all calves, including early weaned calves

Formulated using high protein meals for growing calves

**Highly palatable to ensure early uptake
and rumen development**

**Contains Bovatec® to improve weight gain and feed
efficiency and buffers to reduce the risk of acidosis**

**Typical Analysis*

MSM Calf Pellet is a high protein pellet, which combines MSM's Expeller Pressed Non-GM Canola Meal with selected grains and minerals that are ideal for growing calves. The high bypass protein (RUP) means more protein availability for growth.

Specification (DM Basis) Typical Analysis

Metabolisable Energy	12.5MJ/kg
Moisture	12.5%
Crude Protein	20.3%
Starch	33.2%
NDF	22.9%
Calcium	1.07%
Phosphorus	0.63%
Magnesium	0.34%

CALF PELLET

INGREDIENTS: (may include)

Cereal Grains and Bran, Expeller Pressed Non-GM Canola Meal, Oat Hulls, Almond Hulls, Vegetable Protein Meals, Limestone, Bentonite, Salt, Sodium Bicarbonate, Acid Buf®, Bovatec®, Molasses, Syrup, Minerals, Trace Elements, Vitamins and Sweeteners.

FEEDING GUIDELINES:

- Always provide clean fresh water
- Pellets should not exceed 70% of total intake (approx. 2% of animal liveweight)
- Quality roughage source to be made available through either pasture, hay or straw
- Proper introduction process to be followed, with intake built up during the first 7-10 days to avoid sudden changes to the ration
- Best fed through lick feeders with the slide (single slide feeder) open 10-15mm to avoid gorging

OTHER:

MSM Calf Pellet is a 6mm pellet available in bulk (min. 6MT order) and 1MT Bulka Bags.

- No urea (non-protein nitrogen) used in these pellets
- Cracked barley option available for slower starch release and more stable rumen pH
- Does not contain any Restricted Animal Material
- Should only be used for cattle
- Withholding periods Meat and Milk: NIL

This product is suitable for beef cattle only. Pasture quality, climate, breed and age of the cattle will give different results. Please use the feeding method as a guide only and ensure pellets are introduced gradually.
